Salado artisan creates new custom furniture line.

The Salado Sawmill announces the “Texas Tycoon Collection”, a new line of furniture designed and constructed by Robert Pascoe in his artisan’s workshop in Salado, Texas.

Big, bold and rugged like a Texas oilmen, this line reflects the character and style of these demanding men. No Victorian frills here; just clean lines, chiseled features, and big proportions. While the style of these pieces reflects Texas roots, it also demonstrates a flair for the dramatic through the use of burl, bird’s eye, and quarter-sawn lumber.

With nothing but the best for the modern-day tycoon, these pieces are handmade by Pascoe, a Master Craftsman, using traditional mortis and tenon joinery, with hardwoods

and veneers throughout. Particleboard, laminates, or faux-finishes are not allowed here, only authentic natural wood product.

Pictured here is the Library Cabinet in the Tycoon Collection. This piece is made from bird’s eye maple. Note the shop-made crown molding, distinctive base, and towering proportions. A showpiece for today’s tycoon – oil or otherwise.

These pieces are made in a custom workshop, allowing you to specify the dimensions, wood type, color, and hardware. Because Pascoe works the project from design through build and finishing, you are assured quality at every step.

Other pieces can be seen at the Salado Sawmill or www.saladosawmill.com. Call or come by during business hours for a consultation.
